

SIDE ELEVATION (SCALE NTS)

LAMINATED PANEL

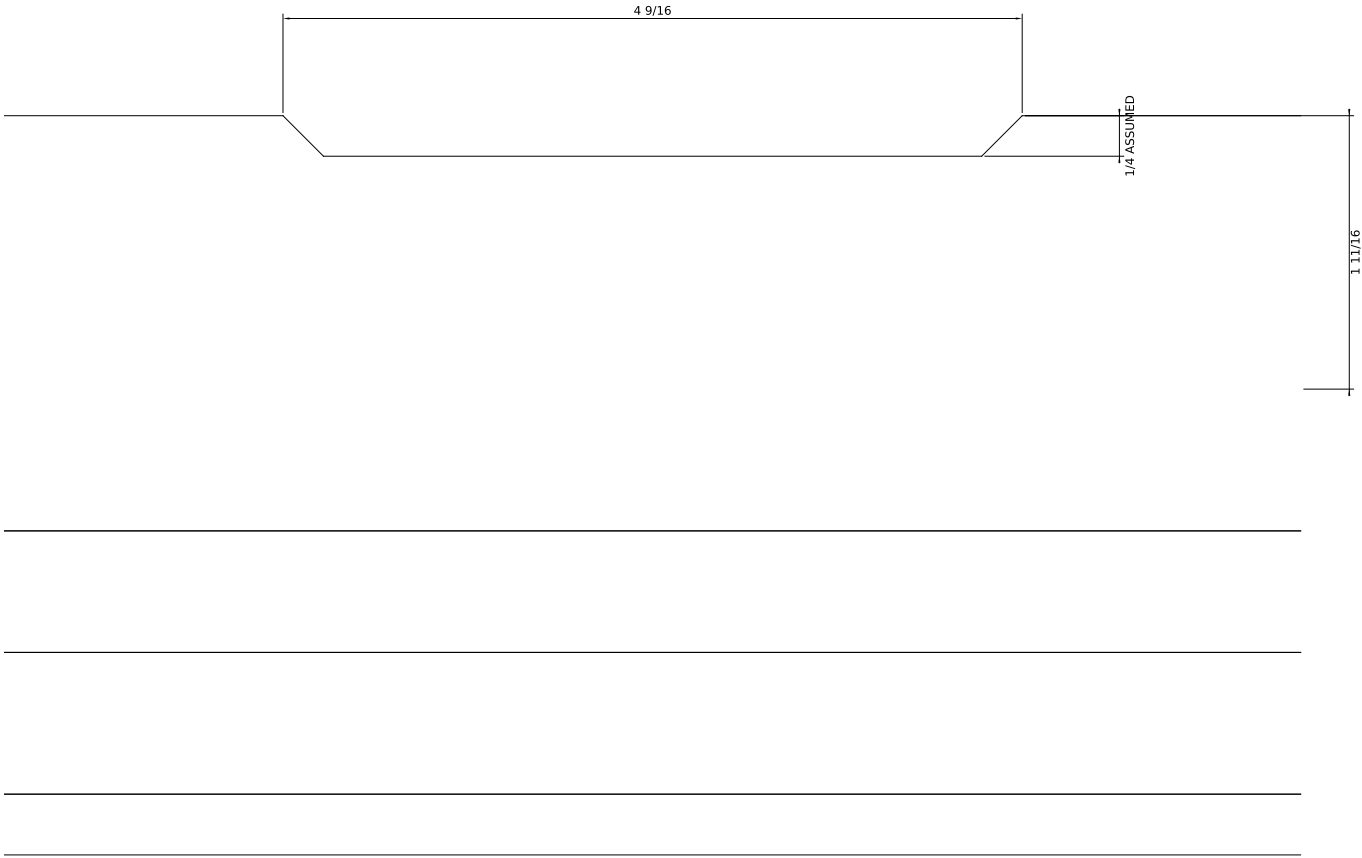

UNITS: INCHES SOURCE: HAND SKETCH DATE: 2026-10-02

1. Transcribed from hand sketch. Verify before fabrication.
2. All dims in inches. Profile edge heights are chained: 5/16 + 9/16 + 13/16.
3. 1 5/8 + 33 1/2 + 9 1/8 = 44 1/4: raised profile spans 33 1/2 at base.
4. 3" steps measured from profile start/end to the vertical riser.
5. Chamfer (5/16) and slope (13/16) at 45 deg, per GE sample.
6. Center notch: 4 9/16 wide, centered on profile, 1/4 deep (depth ASSUMED).
7. Core tenon 3/4 x 7/8 both ends, assumed flush with core faces.

DETAIL A - LEFT END (SCALE 3:1)

Right end mirrors left end (9 1/8 from end to profile).

DETAIL B - CENTER NOTCH (SCALE 3:1)

Notch centered on 33 1/2 profile, 45 deg sides.
