

SIDE ELEVATION (SCALE NTS)

LAMINATED PANEL

UNITS: INCHES    SOURCE: HAND SKETCH    DATE: 2026-10-02

- 1. Transcribed from hand sketch. Verify before fabrication.
- 2. All dims in inches. Profile edge heights are chained: 5/16 + 9/16 + 3/4.
- 3. 1 5/8 + 33 1/2 + 9 1/8 = 44 1/4: raised profile spans 33 1/2 at base.
- 4. 3" steps measured from profile start/end to the vertical riser.
- 5. Chamfer (5/16) and slope (3/4) at 45 deg, per GE sample.
- 6. Center notch: 4 9/16 wide, centered on profile, 1/4 deep (depth ASSUMED).
- 7. Core tenon 3/4 x 7/8 both ends, assumed flush with core faces.

DETAIL A - LEFT END (SCALE 3:1)

Right end mirrors left end (9 1/8 from end to profile).

DETAIL B - CENTER NOTCH (SCALE 3:1)

Notch centered on 33 1/2 profile, 45 deg sides.
